

Brainstorming & Idea Prioritization

Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Team ID	SWTID-2026-1254
Team Lead	Kamalesh S
Team Members	Tamilselvan P, Tamilselvam K, Mugunthan S, Suriya L

Project Idea

ComicCraft is a web-based AI application that generates personalized comic book stories and illustrations from user-provided prompts.

Brainstorming Focus

The team focused on automating the comic creation process: story ideation, panel-by-panel outlining, narration, character dialogue, illustration generation, comic preview, and PDF export.

Ideas Considered

AI-assisted story generation; personalized character and setting inputs; tone and art-style selection; panel-wise illustration; online comic preview; downloadable PDF comic.

Idea Prioritization

The selected solution combines the most important user needs into one end-to-end workflow: prompt input → structured outline → detailed story → images → preview → PDF export.

Selected Idea

ComicCraft - AI Comic Story Creator using Gemini Models, integrated with Stable Diffusion for comic-style illustrations.
